

Recorded Mammals, Amphibians and Reptiles

MAMMALS

Fox

Badger (Visitors; no sett has been found on the Commons)

Grey Squirrel

Brown Rat (These come to feed on material left for birds at the ponds.)

Rabbit (Visitors from Scadbury and Hawkwood; no burrows have been found on the Commons.)

Bats: Pipistrelle

Long-eared

Daubenton's

Nautilus (All four species have been recorded around Prickend Pond by the local bat specialist. The Nautilus is a rare visitor from the European mainland.)

Hedgehog

Common Shrew

Pygmy Shrew

AMPHIBIANS

Common Frog

Common Toad

Smooth Newt

REPTILES

Common Lizard

Grass Snake (Seen on the woodbank on St Paul's Cray Common a few years ago.)

Terrapin (Five introduced animals survived in Rush Pond for several years, but have not been seen since the 2007 drought.)
